## AchievAL FRH 46

Revision: 2023-09-13

Version number: GHS 2.0 Replaces version of: 2023-09-08 (GHS 1)

## **SECTION 1: Identification**

## 1.1 Product identifier

Trade name Other means of identification AchievAL FRH 46

13209

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses

Uses advised against

Hydraulic fluid Professional use Industrial use

Do not use for products which come into contact with foodstuffs. Do not use for private purposes (house-hold).

## 1.3 Details of the supplier of the safety data sheet

KOST USA 1000 Tennessee Avenue Cincinnati OH 45229 United States

Telephone: 1-800-661-9391 Telefax: 1-513-492-5555 e-mail: sales@kostusa.com Website: www.kostusa.com

## 1.4 Emergency telephone number

Emergency information service

1-800-424-9300 24 hr emergency information

## SECTION 2: Hazard(s) identification

## 2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

| Section | Hazard class                                       | Category | Hazard class and category | Hazard state-<br>ment |
|---------|--|----------|---------------------------|-----------------------|
| A.2     | skin corrosion/irritation                          |          | Skin Irrit. 2             | H315                  |
| A.3     | .3 serious eye damage/eye irritation               |          | Eye Dam. 1                | H318                  |
| A.9     | specific target organ toxicity - repeated exposure | 2        | STOT RE 2                 | H373                  |

For full text of abbreviations: see SECTION 16.

The most important adverse physicochemical, human health and environmental effects Delayed or immediate effects can be expected after short or long-term exposure.

## 2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

- Signal word
- Pictograms

GHS05, GHS08

danger

acc. to 29 CFR 1910.1200 App D

# AchievAL FRH 46

Version number: GHS 2.0 Replaces version of: 2023-09-08 (GHS 1) Revision: 2023-09-13

| - Hazard statements    |  |
|------------------------|--|
| H315                   | Causes skin irritation.  |
| H318                   | Causes serious eye damage.   |
| H373                   | May cause damage to organs through prolonged or repeated exposure.   |
| - Precautionary stater | nents  |
| P260                   | Do not breathe dust/fume/gas/mist/vapors/spray.  |
| P280                   | Wear protective gloves/protective clothing/eye protection/face protection.   |
| P302+P352              | If on skin: Wash with plenty of water.   |
| P305+P351+P338         | If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310                   | Immediately call a poison center/doctor.   |
| P321                   | Specific treatment (see on this label).  |
| P362                   | Take off contaminated clothing and wash before reuse.  |
| P501                   | Dispose of contents/container in accordance with local/regional/national/international regulations.                              |
|                        |  |

- Hazardous ingredients for labelling

ethylene glycol, Oxirane, 2-methyl-, oligomeric reaction products with oxirane, ether with 2-ethyl-2-(hydroxymethyl)-1,3-propanediol (3:1), 2-dimethylaminoethanol

## 2.3 Other hazards

Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance in a concentration of  $\ge 0.1\%$ .

### Endocrine disrupting properties

Does not contain an endocrine disruptor (EDC) in a concentration of  $\geq 0.1\%$ .

## **SECTION 3: Composition/information on ingredients**

### 3.1 Substances

Not relevant (mixture)

## 3.2 Mixtures

Description of the mixture

| Name of substance   | Identifier           | Wt%       | Classification acc. to GHS  | Notes |
|---|----------------------|-----------|---|-------|
| ethylene glycol   | CAS No<br>107-21-1   | 40 - < 55 | Acute Tox. 4 / H302<br>STOT RE 2 / H373   |       |
| Oxirane, 2-methyl-, oligomer-<br>ic reaction products with oxir-<br>ane, ether with 2-ethyl-2-(hy-<br>droxymethyl)-1,3-propanediol<br>(3:1) | CAS No<br>52624-57-4 | 12-<20    | Eye Dam. 1 / H318   |       |
| 2-dimethylaminoethanol  | CAS No<br>108-01-0   | 1-<5      | Acute Tox. 4 / H302<br>Acute Tox. 4 / H312<br>Acute Tox. 3 / H331<br>Skin Corr. 1B / H314<br>Eye Dam. 1 / H318<br>STOT SE 3 / H335<br>Flam. Liq. 3 / H226 |       |
| capric acid   | CAS No<br>334-48-5   | 1-<5      | Skin Irrit. 2 / H315<br>Eye Irrit. 2 / H319   |       |

acc. to 29 CFR 1910.1200 App D

## AchievAL FRH 46

Version number: GHS 2.0 Replaces version of: 2023-09-08 (GHS 1) Revision: 2023-09-13

For full text of abbreviations: see SECTION 16.

This table, if present, includes all GHS classified ingredients present above their cut-off limits, even if the finished product is not classified as hazardous by GHS.

## **SECTION 4: First-aid measures**

## 4.1 Description of first-aid measures

#### General notes

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

#### Following inhalation

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. In case of respiratory tract irritation, consult a physician. Provide fresh air.

#### Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing.

#### Following ingestion

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

## **SECTION 5: Fire-fighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media Water spray, Alcohol resistant foam, BC-powder, Carbon dioxide (CO2)

### 5.2 Special hazards arising from the substance or mixture

Hazardous combustion products

Nitrogen oxides (NOx), Carbon monoxide (CO), Carbon dioxide (CO2)

#### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

## **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

### 6.2 Environmental precautions

not required

## 6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill Covering of drains

acc. to 29 CFR 1910.1200 App D

# AchievAL FRH 46

Version number: GHS 2.0 Replaces version of: 2023-09-08 (GHS 1)

### Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

Appropriate containment techniques

Use of adsorbent materials.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

#### 6.4 Reference to other sections

Hazardous combustion products: see section 5. Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

## **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

#### Recommendations

#### - Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Use only in well-ventilated areas.

#### Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

## 7.2 Conditions for safe storage, including any incompatibilities

#### Control of the effects

Protect against external exposure, such as

frost

## 7.3 Specific end use(s)

See section 16 for a general overview.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

| Occupational exposure limit values (Workplace Exposure Limits) |                 |          |                 |              |                    |               |                     |                         |  |                 |                     |

## 8.2 Exposure controls

Appropriate engineering controls

General ventilation.

Individual protection measures (personal protective equipment)

### Eye/face protection

Wear eye/face protection.

Skin protection

- Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

- Other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

### Environmental exposure controls

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

## SECTION 10: Stability and reactivity

## 10.1 Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

## 10.2 Chemical stability

See below "Conditions to avoid".

**10.3 Possibility of hazardous reactions** No known hazardous reactions.

10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

10.5 Incompatible materials

Oxidizers

## 10.6 Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

Test data are not available for the complete mixture.

### Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

## Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

#### Acute toxicity

Shall not be classified as acutely toxic.

| Acute toxicity estimate (ATE) of components of the mixture          |          |                   |                                     |  |  |  |  |
|---|----------|-------------------|-------------------------------------|--|--|--|--|
| Name of substance         CAS No         Exposure route         ATE |          |                   |                                     |  |  |  |  |
| 2-dimethylaminoethanol  | 108-01-0 | oral              | 1,183 <sup>mg</sup> / <sub>kg</sub> |  |  |  |  |
| 2-dimethylaminoethanol  | 108-01-0 | dermal            | 1,100 <sup>mg</sup> / <sub>kg</sub> |  |  |  |  |
| 2-dimethylaminoethanol  | 108-01-0 | inhalation: vapor | 3 <sup>mg</sup> / <sub>l</sub> /4h  |  |  |  |  |

## Skin corrosion/irritation

Causes skin irritation.

## Serious eye damage/eye irritation

Causes serious eye damage.

#### Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

#### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

#### Carcinogenicity

Shall not be classified as carcinogenic.

acc. to 29 CFR 1910.1200 App D

# AchievAL FRH 46

Revision: 2023-09-13

Version number: GHS 2.0 Replaces version of: 2023-09-08 (GHS 1)

## Reproductive toxicity

Shall not be classified as a reproductive toxicant.

#### Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

### Specific target organ toxicity - repeated exposure

May cause damage to organs through prolonged or repeated exposure.

### Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

## **SECTION 12: Ecological information**

### 12.1 Toxicity

Shall not be classified as hazardous to the aquatic environment.

### 12.2 Persistence and degradability

Data are not available.

### 12.3 Bioaccumulative potential

Data are not available.

### 12.4 Mobility in soil

Data are not available.

### 12.5 Results of PBT and vPvB assessment

According to the results of its assessment, this substance is not a PBT or a vPvB. Does not contain a PBT-/vPvB-substance in a concentration of  $\geq$  0.1%.

### 12.6 Endocrine disrupting properties

Does not contain an endocrine disruptor (EDC) in a concentration of  $\geq 0.1\%$ .

### 12.7 Other adverse effects

Data are not available.

## **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

#### Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.

#### Waste treatment of containers/packages

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

#### Remarks

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.
